Will He Face the Music?

The Southern papers, exultant in the pro Slavery victory which, with the help of Northern Doughfaces, they have just won, are clamorously calling upon Mr BUCHANAN to recognize the "sectional" and "sectional" issue to which he owes his election The *New Orleans Delta* puts the case squarely to him thus

"The issue will be before the incoming President, and he must meet it His Cabinet cannot be harmonious and efficient if it have hostile elements in it His policy must be either what the South desires it to be—*the development of the Ostend programme in respect to Cuba and Central America and the assertion of the right of the South to extend her institutions and territory, and grow her growth to about stint or restriction*—or it must be the opposite There is no middle ground for anything but a wretched, disgusting, ruinous, rotten do nothingism. *The South elected Mr Buchanan* Will he not appreciate the fact? Will he be grateful? Will he forget whence he derived his power, and where he must look to be sustained? The future must answer"

This is the entertainment to which the South invites Mr BUCHANAN and his Northern supporters We await, with some curiosity his answer to the summons

Rail Road to the North West.

The Ripon *Home* has an excellent article upon the subject of the importance to this City of pushing forward rapidly its rail road connections in the northwesterly direction taken by the Milwaukee and Horicon R R, just completed to Ripon We copy a portion of the article referred to

"Time, in a matter of this sort, is of the greatest consequence Some one has said in a wise fit' that "time is money" In this instance, time is *more* than money If Milwaukee had a road completed to Stevens Point or Weyauwega, she would be in a condition to bear away success fully the trade of the region north of us, with but little money to build it, she could not do Now there is a road completed from Milwaukee to that point, which is further north than any point where work has been begun on the Valley Road From its present there is a railroad charter for a road along the valley of the Wolf, and an excellent route for its construction By this route, the Wolf Pinery and an excellent farming region would find its most direct and proper outlet

"We have not space, to-day to dwell upon the great advantages of this route, but to one acquainted with the country, its position, &c, they will be easily discovered."

The *Home* says not a word too much, and too much can hardly be said, in favor of this road as certain to prove a vast benefit to our city, and a paying investment for its stockholders A glance at the map, to any one who has marked the progress of settlement and the development of every material interest in the counties which the line traverses and penetrates, ought to be satisfactory on both points The trade of our merchants with the people of Dodge, Fond du Lac, Marquette, Winnebago, Waushara, Waupaca, Portage, and other counties necessarily tributary to this road, is already large, and is capable of indefinite extension, as the country fills up, while the return trade in lumber and agricultural products must be immense Our citizens ought not, for their own interest to allow the work to flag for a moment.

JEFFERSON CO REPUBLICAN—This paper, heretofore published at Jefferson Jeff Co is to be removed to Wausau, Marathon Co, where it will appear as the "*Central Wisconsin*"— The *Cayuga Chief*, well known as an able and outspoken Republican paper, now published at Ft. Atkinson, will occupy the place of the paper which is thus removed, and with the increased patronage, cannot fail to be successful.

Hon. Mr Hobart, Republican M C elect from Wisconsin, was formerly a law student in Robert Rantoul's office

We find the above paragraph in several of our exchanges. It contains two slight mistakes— Mr HOBART is not a "Republican, nor "M C. elect from Wisconsin He was the unsuccessful competitor of Mr BRIGHT last, the Republican M. C from the Third District of our State, who has just been re elected by a handsome majority The third statement in the paragraph quoted is doubtless true.

Look out for Counterfeits.

Spurious bills of the Saving's Bank, at Connersville, Ill, are in circulation. They are not signed by the Auditor of the State, and are not legally issued Refuse them all, they are worthless.

Jefferson County Election Returns.

The *Republican* brings us the official returns of the votes cast at the late election, but as the majority of the Board of Supervisors do not recognize the addition of the five towns taken from Dodge Co, the table is given in full only for old Jefferson County The figures are as follows

Towns	Frem't	Buch	Billingh't	Hob't
Aztalan,	117	51	117	54
Cold Spring,	123	30	123	31
Concord,	145	111	133	120
Farmington,	150	145	148	149
Hebron,	167	84	167	84
Ixonia,	101	132	99	136

Watertown, (T)	65	251	65	254
" city	918	467	313	617
	2828	2072	2858	2305

Thus, in old Jefferson county, Fremont has a majority of 150 and Billinghurst 50 over Hobart, showing a good day's work on the part of the Republicans of the old county The vote in the old county in 1854, for Congress, was 1413 for Billinghurst, 1270 for Hobart, 116 for Turner —total vote 2901, total Congressional vote this year, 5213

The vote for Governor last year was 1746 for Bashford to 1008 for Barstow—total 2801, total vote for President this year, 5200

The five towns of Portland, Shields Emmett, Lebanon and Ashippun, being added to the Jefferson above, make the total vote on President, 3289 for Fremont, 2175 for Buchanan—majority for Buchanan 114

The *Republican* says that the sum of one hundred dollars has been appropriated by the Board of Supervisors, towards defraying the expenses of testing the constitutionality of the Act annexing the southern tier of towns of Dodge county to Jefferson county, and J C Brayton, of Ashippun, and A H Waldo and O C Merriman of Jefferson, were appointed a committee to carry out the objects of the appropriation

Rail Roads in Iowa—Western Connections of the Mil. & Miss. R. R.

MONONA, CLAYTON Co, IOWA, November 15, 1856

MESSRS. EDITORS —Beyond the Mississippi, and opposite the Western terminus of the Mil & Miss R R there lies a section of country that is destined to exert a great influence on the future interests of Milwaukee Of its characters, capacities and the project for developing its vast resources, I propose to give you a general idea

On the 2nd of June last a company was formed under the name of McGregor, St. Peters, and Missouri River Railroad, for the purpose of constructing a Railroad from McGregor, (a point opposite the terminus of the M. & M R R) and to run as near a due west course as was found practicable On the 7th of July the surveys were commenced and have since been completed one hundred and forty miles into the interior, the result of which shows a first class route of the most feasible character Leaving the Mississippi through the valley of Bloody Run, and following that stream to its source, we attain the summit level with a maximum grade, exceeding by a few feet only the maximum grade of the Mil & Miss Railroad

Thirteen miles from the Mississippi is found the highest elevation, and for upwards of one hundred miles beyond the surface of the country is very uniform The facility with which the summit level is attained, is not equalled by any road leaving the Mississippi on the Iowa side, and from thence westward, no difficulty of a serious character presents itself West of the Summit, and beyond Turkey River the line compares favorably with the Western Division of M & M R R—it can be constructed as cheaply and operated as profitably as any portion of that road, provided it is as well superintended.

The capacity of the country for supporting a railroad is unbounded, it is, perhaps, the richest, most productive, and most beautiful section of country in the whole Northwest, consisting mostly of rolling prairies, with large bodies of timber in the valleys of the streams and small groves scattered about Timber is very plenty for fifty miles back, then grows scarcer and the prairies increase in size, they are, however, well watered with fine springs and streams The valley of the Cedar is, perhaps, unequalled for beauty and fertility of soil I know of no place that presents so many temptations to the emigrant, or that promises so richly to reward his toil

Northern Iowa is well settled for 100 miles from the Mississippi, and with that most enterprising class of people, the farmers of New England and New York, log houses are seldom seen —generally frame houses of a good substantial character, and fences of the nine rail sort The greatest difficulty under which the people, back from the river, labor, is the want of pine lumber, nearly every house is built of equal proportions of oak, black walnut and bass wood

A daily line of four horse post coaches, of the Funk and Walker stamp, run 95 miles along the surveyed line of road, and the amount of teaming outstrips the palmy days of the Mil & Water town plank road

On the subject of a railroad, the people of Northern Iowa are "up and dressed," there is nothing in which they take more interest at the present time, except Republican principles, and on this point Northern Iowa is all right

The opening of the Mil & Miss R R. to Prairie du Chien is an event looked forward to with great interest and impatience by all this section of country MILWAUKEE will then become their leading market, as supplies of every description can be obtained there more advantageously than at any other point on the Mississippi River The single item of lumber will be demanded in large quantities and Milwaukee must supply that demand The rafted lumber of the Mississippi is not delivered on the river at as low a rate as clear lumber from Milwaukee can be laid down in Prairie du Chien And as Southern Iowa relies on Chicago for all her supplies of this article, so Northern Iowa must look to Milwaukee

As a feeder to the Mil & Miss R R this route cannot be too highly estimated, the Mississippi river is nothing in comparison to it— Southern Minnesota must be reached in a shorter and more reliable manner, and to accomplish that end a survey is being made of the Northern Iowa Railroad, a branch of the McGregor road having its terminus at Mankato, on the St Peters River These two routes will fully develope the unequalled resources of this most beautiful region, and pour into the lap of Milwaukee an untold wealth which she would do well to be looking after Yours truly, ENGINEER

Printers' Festival.

We are requested by the Committee of the Printers' Association, to state that preparations are being made to honor the 17th of January, Franklin's birthday, with appropriate ceremonies, and for a Festival, to which they will extend a cordial invitation to the craft throughout the State

MCGREGOR & ST PETERS R R—We invite the particular attention of our readers to the letter which we publish to day in relation to the Railroad, in progress of construction into Iowa, commencing at McGregor, opposite Prairie du Chien In view of the completion of the Milwaukee and Mississippi R R to Prairie du Chien, it behooves our Milwaukee wholesale dealers to be up and doing, to secure to themselves a fair share of the vast trade which will in the spring be opened to them in Northern Iowa

THE RAILROAD CONSPIRACY CASE.—We learn from the Madison papers that in the case of the two Davolts, indicted about a year and a half ago for placing obstructions on the track of the Mil & Miss R R, and twice tried for that offence, the jury, for the third time, have failed to agree. They stood 5 for conviction, 7 for acquittal The *Argus* intimates that a conviction is hopeless, and that another trial would probably result in the acquittal of the accused, there fore it advises that a *nolle prosequi* be entered

More trouble in Waupaca County.

A private correspondent writes us from Waupaca as follows

"The Hon. Charles Billinghurst received a majority in this county of 853 over H C. Hobart, but owing to the county seat difficulties, there have been two canvasses in the county, one at Waupaca and one at Weyauwega The majority at Waupaca was 547 and at Weyauwega 68 over Hobart I have it from a reliable source that a scheme is on foot to defeat Mr Billinghurst I have been told by a member of the opposition that if Billinghurst did not receive over 800 majority in this county he would be defeated, and if we could have two canvasses the State canvassers would reject one of them, and H C Hobart would receive the certificate of election — *Madison Journal*

No use Mr BILLINGHURST has a thousand or two votes to spare, *without* Waupaca It is quite time, however, that these disgraceful proceedings in Waupaca County should be brought to a stop

A Fremonter who has Voted at every Presidential Election.

Land Sales in Kansas.

LEAVENWORTH, K T., Saturday, Nov 15, '56

The steamer Keystone arrived at our levee this morning from Jefferson City, with 200 passengers, among whom were Governor Robinson and lady, G Phillips, whose brother was killed here a few weeks since, and who himself lost an arm during the attack upon his house by Capt Emery and company, H. Miles Moore, A. Adams and Samuel C Smith, Esq.

The Governor and lady proceeded at once to Lawrence, intending to return himself in a few days to attend the land sales, which we advertised to commence on Monday or Tuesday next at Fort Leavenworth The land to be offered at public sale, has been appraised by a board of Commissioners The lowest appraisal is one dollar and fifty cents, and the highest, which is in the immediate vicinity of this city, is appraised at ten dollars per acre. Within the past week several claims have changed owners, sold at prices ranging from $200 to $5,000 each. The city is full of speculators in land, both from the North and the South

THE LUNATIC ASYLUM INVESTIGATION —The Commissioners overruled the objections of the counsel for the State to the validity of the Lunatic Asylum contract, this morning by a majority of the Commissioners was given by Judge Howe, Messrs Lovell and Lynde both adding some remarks

The leading objection, however—the non-compliance of the contract with the terms of the law of '54, which refers to a report of the Senate Committee as the standard of cost of the proposed Asylum—was not disposed of. Messrs. Howe and Lovell decided that the commission could not take judicial cognizance of the report in question, and it must be brought before them as evidence Mr. Lynde took the position that could take judicial notice of the journal of the legislature, but gave no indication of his views, as to the effect of that report in restricting the power of the Lunatic Asylum commissioners in making the contract.

The Commissioners then adjourned till 2 o'clock P M to give the counsel an opportunity to confer together as to their further course

We have full minutes of Judge Doolittle's argument, on the objections aforesaid, which we shall publish to morrow —*Madison Journal*

BEAR KILLED IN CONCORD —We are indebted to Mr AUS in Kellogg for the particulars of the capture of a large black bear, the 6th inst It was started from near Wright's Mills, in the town of Hebron, and pursued by Daniel Bullock, W. T Hall, Minor Densmore, and Isaac Poe, two days and three nights, a distance of over one hundred miles, through woods and marshes, and some of the time in Waukesha county His *backship* finally surrendered in the town of Concord, near the residence of Mr. Kellogg It weighed over three hundred pounds.

For the past few months bears have been a common game, even in many of the oldest portions of our State, but if every one that is seen is pursued with the sagacity which characterised the hunters in this case, that the "varmints" will be captured before doing much damage.

The Marriage of Senator Douglas.

Correspondence of the Evening Post

WASHINGTON, Nov 20 '56

On Thanksgiving to-day was solemnized at 9 o'clock by the marriage of Senator Douglas of Illinois to Miss Adele Cutts, of Washington, after which the married couple took the cars for their future residence in Chicago

The bride was accompanied to the altar by several bridesmaids, but the Senator, being a widower, went alone Only a few of his personal friends were present. The marriage ceremony was performed by Father Byrne, of the Roman Catholic Church, in the religion of which the bride was educated, at the Georgetown Nunnery. Senator Douglas, himself, is not known to have decided leanings toward any religious faith, though some of his friends drew a favorable inference from his recent land donation to a Rapt Col lege in Chicago

In the matter of age and personal beauty there is a wide difference between the bridegroom and the bride Miss Cutts is tall, elegantly formed, with a small, oval face, large brown eyes, small Grecian features, around which are entwined the heavy braids of her abundant and glossy chestnut hair On her clear, peachy complexion there is a perpetual wave of roses—the red and the white—each failing to maintain a sole supremacy Altogether her *tout ensemble* as the Yankees say fully vindicates the good taste of the "Little Giant"

For the gratification of your lady readers the current story is to the way the match was brought about, may be worth mentioning These months ago the Judge, as Mr Douglas is familiarly called, called on the house of his friend, Senator Bright, who lives just opposite Mr Cutts, and it so happened that Miss Cutts was there also Immediately after she left Senator Bright remarked to his compeer, "Douglas, it's really a shame you are not married You ought to find a wife at once, and there's the lady for you The suggestion seemed to strike Douglas with the force of novelty. Accordingly, procuring an introduction from Mr Bright to the house over the way, he soon found the recommendation more than borne out by the actual reality in the personal and mental charms of Miss Cutts He became a frequent visitor, and the marriage engagement was made in the latter part of the summer, though it did not transpire until a few weeks ago

Miss Cutts may be twenty two years of age—She is a cotemporary and member of the circle of belles, now all married off, including Adele side Smith, Florence Greenhow, and others, who once formed a great attraction at the receptions and balls of Washington Her father, James Madison Cutts, an officer in one of the Departments at Washington is a nephew of Mr. President Madison, and is opposed to considerable intimacy with his uncle, to whose family he resided before he was a old line Whig though not long since he volunteered a communication in the Union, testifying to the good opinion which President Madison held of Mr Buchanan He is a gentlemanly quiet man, and much liked in Washington society

As for Mr Douglas, everybody ought to be familiar with his antecedents and appearance In point of years he has decidedly the advantage of his bride, being about twice as old. In person he is short and stocky, a sort of truncated giant whence his well known designation He has a red, somewhat rowdyish face, large features, the nose being rather *retrousse*, but still with an expression indicating rather a rude refined nature, and an imperious energy, that any settled meanness or indignity of disposition In truth, I think him a very good natured, pleasant man, individually He is perfectly willing after rebuking or being abused in the most violent manner to extend the right hand of fellowship to his enemy, though his political hostility is unrelenting He is said to be worth at least one hundred thousand dollars, the result of fortunate speculations in Chicago lots, aside from the property, mostly in Louisiana plantations, left for his two little boys by his first wife While at Washington he lives in a handsome, old fashioned stuccoed house in the outskirts of the city, together with a sister, who with her husband superintends the domestic affairs

Green Bay, Milwaukee and Chicago R. R.

From the N Y Tribune, Nov 22

We gather the annexed statistics from the report of the Green Bay, Milwaukee and Chicago Railroad—a line forty miles of road running as follows from Milwaukee to the State line of Illinois is rather awkwardly called—showing that the road will fully realize the expectations of its projectors This road has now been consolidated with the coal mining roads south to Chicago, and will, in future, be operated more economically under the joint arrangement The report says

We annex the general statement of the Company,

The following are the receipts and expenses as nearly as they can be ascertained at the present time, for the four months end ng the last day of October

	Gross earn'gs	Estim'd exp	Net earn'gs
July,	$68 186 22	12 045 73	14 690 22

Total	$113,344 23	47 990 05	64 354 20

The table of receipts and expenses is not precisely accurate, as the receipts and payment of the steamer, which are included, are estimated, but the ascertained receipts will be larger and the payments less than the estimated, so that the net earnings will be larger than the amount, of 64,354 23 for the four months last past

The short period in which the road has been in operation is not sufficient to enable an accurate estimate of the future revenue of the Company to be made, but it is sufficient to fully prove that the stock of the Company cannot be less than 10 ₰ cent stock for all time to come

I shall close by simply deducting from the tables of receipts and expenses of the first six months and of the sub-equent four month's business of the road, the following results

Gross earnings, 6 months ending July 1 1856	$127 782 18

WOOLEN FACTORY —We learn that Mr. Ford of Watertown, has sold out his Woolen Factory in this place to a gentleman of means who has been for some time largely engaged in woolen manufactures The purchaser intends putting in two hundred spindles, in time for working up the next years clipping of wool This will be an improvement of great moment, both to village and country, and will add largely to the permanent prosperity of both —*Ryon Home*

ACCIDENT —A man by the name of Wm Whitney was instantly killed yesterday morning at Sharon Station, on the Chicago, St. Paul & Fond du Lac R R We understand that he was in the employ of the company, and was attempting to couple the cars when he accidentally fell between them and one or more of the cars passed over his body, entirely severing it He was about 24 years of age a resident of Massachusetts, where his friends now reside —*Janesville Free Press, Nov 26*

WHO GOES BELOW —A son of Erin having hired his services to cut some ice, was asked if he could use the cross cut saw He was sent accordingly in company with some of his co-laborers to cut some ice, and on reaching the centre of the pond the saw was produced with both handles still in their place The verdant son, looking at the saw, very coolly put his hand in his pocket and drawing from it a cent, turned to his companion and, raising the cent said, 'Now Jemmie, fair play, who goes below'

NEW POST OFFICE ARRANGEMENT —We are now the happy recipients of a daily mail from Milwaukee, and receive our Milwaukee papers the same day they are printed A great deal of credit is due somebody, and as we believe in patronising home institutions we shall give all the praise to *our* Post Master.—*Oshkosh Democrat.*

The Storm of Friday on the East side of the Lake—Vessel Capsized—All Lives Lost—Vessels Ashore.

We learn from Cap James Reddie a working master of the Etna Insurance Agency of Messrs G S Hubbard, in this city, who has just returned from Grand Haven, that the storm has been very severe on the east shore of the Lake—Capt R had been at White Lake to get off the schooner Abigail, which had been beached—He had just succeeded in getting her off, by the tug Salvor when the storm came on and drove her again high and dry twenty feet above high water mark The Captain and his men had a lucky escape, being compelled to swim for their lives through the surf and actually to take refuge in the trees on shore The Captain says that the storm swept through the heavy timbered country tearing down trees in its progress and snapping off the tops of the tall pines as if the trunk had been pipe stems

Capt J says that all the vessels on that side of Lake, which were out in the gale must have gone ashore He reports seeing the schooner Helen Kent, partly loaded with lumber, and the schooner Magic, also partly loaded with lumber, ashore The schooner Lady Elgin is supposed to be ashore

A fish boat capsized off Grand Haven and two men drowned

Captain Reddie also reports that the schooner Kansas capsized at a point seven miles south of Grand River Every soul on board was lost have perished

At White Lake the storm was very severe — One house was unroofed At Muskegon three houses were blown down

The schooner Kate Richmond went ashore at a point on the west side of the Lake, between Kenosha and Racine Her cargo (wheat) was insured to the amount of $14,000 in the Chicago Mutual he is half full of water

The Chicago Mutual Company's tug Salvor has succeeded in getting the schooner Ketchum off the beach near St Joseph

If the storm has swept Lake Erie and Huron like it has Lake Michigan, we may expect to hear of some dreadful disasters to the shipping — *Chicago Democrat*

LA CROSSE AND PRAIRIE DU CHIEN R R—B Pike Esq, the Chief Engineer of this Railroad has just completed the survey of this route, and reports it entirely feasible The length of it is 90 miles from depot to depot, thus making it much shorter than was generally supposed — The line runs principally on the bank of the river and on the edge of the bluffs He reports that the grading can be done cheaper and quicker than on any route he ever saw, and can be commenced on the entire line at one time, thereby having it completed at a very short period after the time of beginning. There are no large streams to be bridged, no large gulches to be filled, but the entire route presents almost an unbroken surface comparatively—and the necessary timber for ties, bridges, &c, is plenty, and near at hand.

The survey of this road has thus been made and paid for, and we hope to chronicle the still further progress of this company towards the completion of their enterprise There would not be but few better paying roads in the West The business of the trade up and down the Mississippi rivers even between these two points will warrant the stockholders much return for their outlay in finishing it And especially will this be true when the Milwaukee & Mississippi R R. is completed to Prairie du Chien

It is for the interest of Milwaukee, Madison and all the eastern part of this state, that this road be built on here and Prairie du Chien be built, and the M & M R R could not better invest the means in any enterprise than by urging forward this line which will be an important feeder to them Even the business of Bad Ax county would pay well, for a more fertile or healthy section of country does not lay in the north west, and we hope the energies of capitalists will be attracted to the many features it presents, as there is real unmistakeable merit, worthy of attention and an energetic development The exploration of Engineer Pike and his assistants fully confirm the opinions of former observation as to feasibility and cheapness of construction —*La Crosse Republican, Nov 24*

Railroad Enterprises in Missouri and Wisconsin.

The commercial and financial editor of the New York *Independent* of the 20th, in treating of the prospect of building railroads in Kansas, thus contrasts railroad enterprises in Missouri and Wisconsin

"But how stands the case in the Sister State—old, slow moving Missouri? There are no numerous bands of small industrious settlers along the lines of her railroads, all of recent date, and far behind her hitherto rival, Wisconsin Her capitalists are large owners of land and of slaves yet the State is obliged to give her bonds and sell them at a discount in the market, and send expensive agents to Europe to sell them, as she is doing now and yet cannot come up to the farmers' mortgages of Wisconsin Missouri has saddled herself with a large and onerous debt for railroad purposes Wisconsin has none

Missouri State credit is at a discount Wisconsin State credit is unaffected, as it is not united Missouri bonds are not sought after by the old capitalists of Hartford for safe holding, but from their being pressed on the market continually, have become the butt of bull and bear in Wall street, their great fluctuations in value being the cause

One of the Railroad Companies of Missouri is the Iron Mountain Railroad Company built in great part by the depreciated bonds of the State, and of the city of St. Louis, which is all in ashes and sorrow, from squabbles between the directors and the contractors The finished railroads of Wisconsin run through thickly settled lands, well cultivated, though of recent settlement, those of Missouri run through sparsely settled districts, not of recent settlement, and comparatively all uncultivated Wisconsin is already receiving back large returns from some of these roads Missouri is still exhausting herself with outlays, and the more bonds she puts out, the more they depreciate, while the farm mortgage bonds of the Wisconsin roads, with which the State has nothing to do, are ever rising in value Which of these two systems is to be followed in Kansas

POLICE COURT, NOVEMBER 25.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

William Donnell, drunk fined $1, Thomas Kelly, drunk and disorderly, beating his wife, fined $15

Reddes Berge and Andreas Bender, drunk, each fined $1

STEALING SAUERKRAUT.—A boy about 14 years of age, named Edward Woolenaach was tried on a charge of stealing 2 lbs of "sauerkraut" from a butcher's stall, in the First Ward Market House The defendant was found guilty and was sent to jail for 10 days

George Servanser, charged with assault and battery upon his wife, case was continued to Dec 9d, at 10 A M The defendant was required to give bail for his appearance at that time, and to be of good behavior in the meantime, in default of bail the defendant was sent back to jail.

In a short time after leaving the Court he returned and gave the necessary bail, and was then discharged from custody

A woman "with a child in her arms," came in for a warrant for another woman for assault and battery upon her—"and I have plenty of witnesses your honor it is she threatened to take my sacred life, as she catched me outside o the door" The Court sent an officer to enquire into the matter the woman watched her chance, and cleared

The amount of expense saved to the Court by this course of the Police Justice—sending an officer to examine into these cases, in which there is doubt of the applicant's veracity, before the issue of warrants, is immense Nothing is more common than for an applicant to tell a long story of his or her grievances, something in the relation indicating that the applicant was in fault, and finding that an officer is despatched to investigate the matter the applicant "cuts" and the officer returns with a statement that the applicant was to blame, and communicated the trouble A long experience in office has enabled the Justice to discover at a glance when a case has its own terms, "there is a nigger in the fence, there somewhere" The City Attorney in this case directed the issue of a warrant in the above case for disorderly conduct

CREATING FARMERS.—A clerk in one of the small clothing stores was brought in by a hideous Cayuga upon the following state of facts. A farmer bought a lot of drawers for $1 and handed a $5 bill in payment, the clerk paid him change on one dollar bill of the Bank of Milford, Delaware, the farmer left and the bill was worthless and took it back—the clerk did not give it to him on his going again, the clerk offered to give him a good bill if he, the farmer, would pay on 50 cents. On the policeman going to the store the clerk offered to give a good bill for it. The policeman would not permit the matter to be settled, arrested the clerk and brought him and the farmer to the Police Court. On examination it was found there was no statute under which a man could be prosecuted for passing bad bills, although the bills were worthless

Now that the Legislature have passed an act preventing the extension of the Bank Dragon roost, and another to compel the redemption of our Canada Thistles, might they not pass an act to punish persons who knowingly pass worthless bank bills What a prosecution would such an act be to hundreds of farmers residing in this city The police say the complaints of this kind are innumerable, and that when they are called on, and go to these places, the parties invariably settle.

A Great Invention

The attention of the Gas Companies, and of all the world besides is invited to the full wing communication from our old countryman Lord CAMELFORD, addressed to the praiseworthy patriots, Northcott, Keech Democrat, American, and Atlas who may be quoted to take the "general agency in this kind of wonderful money taking cities—freighting at once and again to stop out at once."

We go in for it—what say our neighbors?

"INVENTION of Momentality Gas Lighting, at once in all Lanterns, by Electricity of wire leading through the cable of Gas—very important indeed. I very recommend the Liberal Gas Com through the Universe this heavenly his Extraordinary Indigestion of Cities, hath now reach his perfections I suppose, according to my observation it was a want of equal right, to call it all Illumination at once—because it cost one price—this Mystical Arrangement, is very simple, & cheap expensive it is fixed in the canna by or gas building, it is needless all I promise you are all said Gas Com. please and give me a pronunciation to agree this condition of I is really—" all C Gleon have a right to compel from C M at most equal colleghings, because it is now invent"

INSTRUCTION.

LESSONS IN

Foreign Languages.

MR. AND MRS. L. S. E. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their hours being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those too wish not to learn vocal music in either of those languages, will find a competent music teacher in the establishment.

The hours of first section will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M. And in the evening from half past 6 to 8, for conversation.

Mr. DE CRETY will also give lessons in French, Spanish and Italian, at 1 o'clock, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Penmanship, the use of the Sword and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises improvement in their health, acquire strength in their limbs and find an agreeable recreation.

Mr. De Crety will also form small classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, of the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr. De Crety will take charge of French correspondence to all the principal cities of France and Paris, or procure all Paper currents that they may want.
